

# CALLING ALL GARDENERS

We would like to start a Community Garden here at Adath Israel and are looking for eager volunteers who would be willing to help prepare, plant and tend the garden. Over the next week, we will be digging up the existing flowers and grasses in the parcel of land that runs along the side of the Girsh Auditorium (near the school entrance).

The Preschool students will be using a portion of the garden for their crops and the balance of the garden will be available for a Community Garden.

For this first season, we will be providing a variety of vegetable and herb plants and are hoping to have a core of volunteers to help get everything planted and then tend to the garden on a weekly basis. Throughout the summer, we will need people to water, weed and otherwise tend to the plants.

At harvest time, we envision distributing the bounty in three ways : everyone who volunteers will receive a portion; we will serve some of what we have reaped at a special Kiddush luncheon, and, in keeping with the commandment to leave the corners – *Pe'ah* – of our harvest to the poor and strangers, we will be donating a portion of our produce to the Mitzvah Food Pantry Emergency Food Network.

Please contact Lori Dafilou at 610-934-1903 or at [ldafilou@adathisrael.org](mailto:ldafilou@adathisrael.org) if you are interested in helping.
